KEY BUSINESS INSIGHTS, RISKS AND OPPORTUNITIES

Overall Performance

Global Superstore generated \$12.64M in total sales and \$1.47M in total profit, resulting in an 11.61% profit margin across approximately 25K orders. Sales and profit show an overall upward trend from 2011 to 2014, indicating positive business growth.

Business Risks

The business faces potential regional concentration risk due to Central's leading performance. The 11.61% profit margin also indicates the need to carefully manage costs and pricing. In addition, strong sales in a category or segment may not always translate into equally strong profitability.

Key Business Insights

The Central region recorded the highest sales at approximately \$2.8M, while Technology led category sales with approximately \$4.74M. The Consumer segment generated the highest revenue at approximately \$6.5M, while the Canon image Runner product recorded the highest product-level profit at approximately \$25K..

Business Opportunities

Management can improve performance by replicating successful strategies from the Central region, prioritizing high-performing products and categories, and strengthening the Consumer segment through targeted marketing, retention, cross-selling and upselling. Improving cost and pricing management can also help increase profitability.
